COMPANY COMPARISON

# BEYOND THE RATIOS.

## Financial Performance Analysis

## INOX WIND × SUZLON ENERGY

FY 2023–24 — FY 2025–26

THE CORE QUESTION

**Can healthier balance-sheet ratios hide a cash-flow problem?**

RESEARCH SCOPE

# A focused comparison, not just a ratio exercise.

Consolidated financial statements for FY 2023–24 through FY 2025–26.

| 02 | 09 | 54 |
|---|---|---|
| COMPANIES | FINANCIAL RATIOS | CALCULATIONS |

01 **LIQUIDITY**

Current ratio • Quick ratio • Cash ratio

02 **PROFITABILITY**

Operating ratio • Net profit margin • Return on equity

03 **SOLVENCY**

Debt–equity ratio • Interest coverage • Proprietary ratio

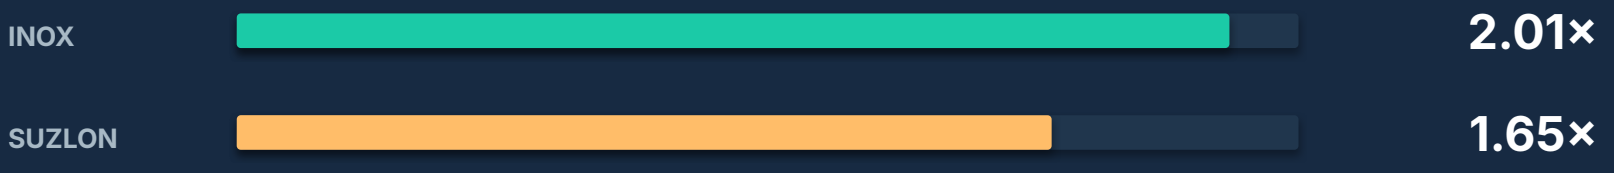

Sources: companies' annual reports and Screener; methodologies disclosed in the companion brief.

LIQUIDITY

# Stronger coverage. Not stronger cash.

FY 2025–26 comparison • values expressed in times

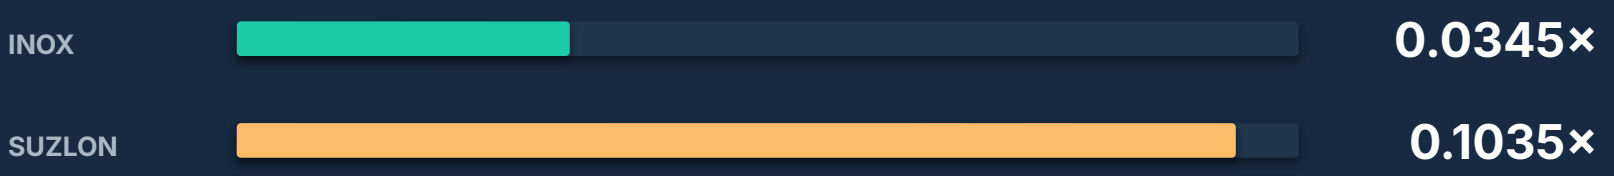

## CURRENT RATIO

## QUICK RATIO

## CASH RATIO

WHAT MATTERS

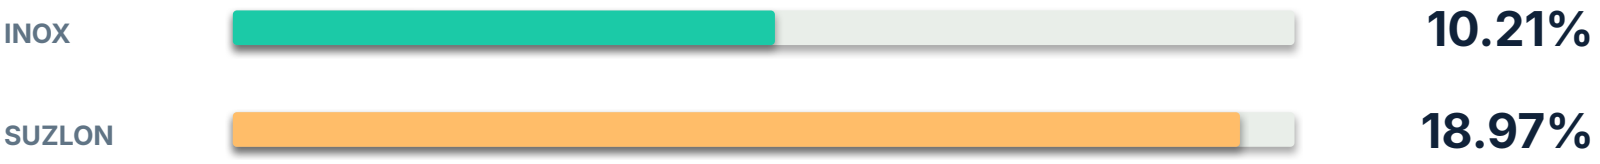

**Inox had ₹4,249.84 cr in trade receivables, or 55.83% of current assets.**

PROFITABILITY

# Suzlon leads on returns. But earnings need context.

FY 2025–26 comparison • reported ratios

## NET PROFIT MARGIN

## RETURN ON EQUITY

## OPERATING RATIO • LOWER IS BETTER

THE EARNINGS-QUALITY CAVEAT

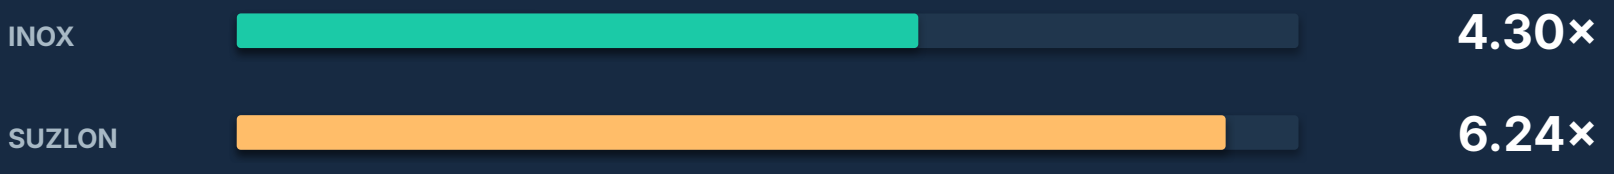

**Suzlon’s FY26 reported net profit includes a ₹741.67 cr net tax credit.**

FINANCIAL STABILITY

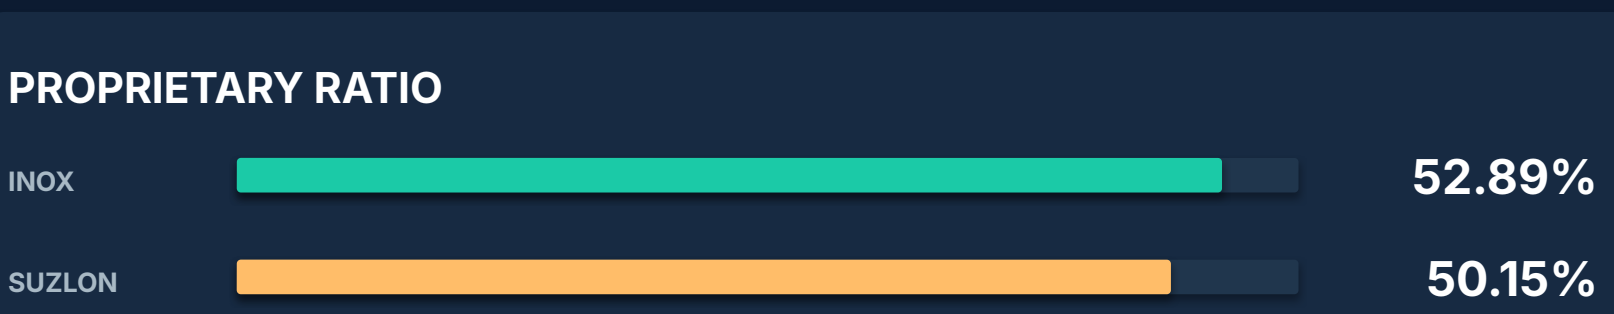

# Interest coverage tells a stronger Suzlon story.

FY 2025–26 • long-term stability and financing mix

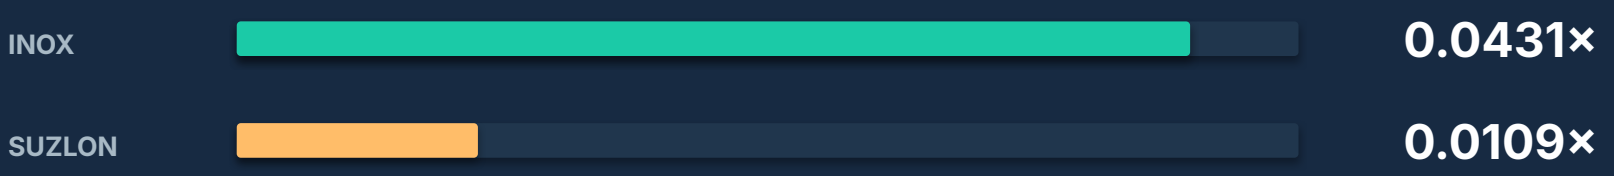

## INTEREST COVERAGE

## PROPRIETARY RATIO

## LONG-TERM DEBT–EQUITY

READ THE DEFINITION

This debt–equity measure excludes current maturities and leases; low ≠ debt-free.

KEY FINDING

# Profitable on paper. Cash under pressure.

Inox Wind • FY 2025–26

NET PROFIT AFTER TAX

**₹449.10**

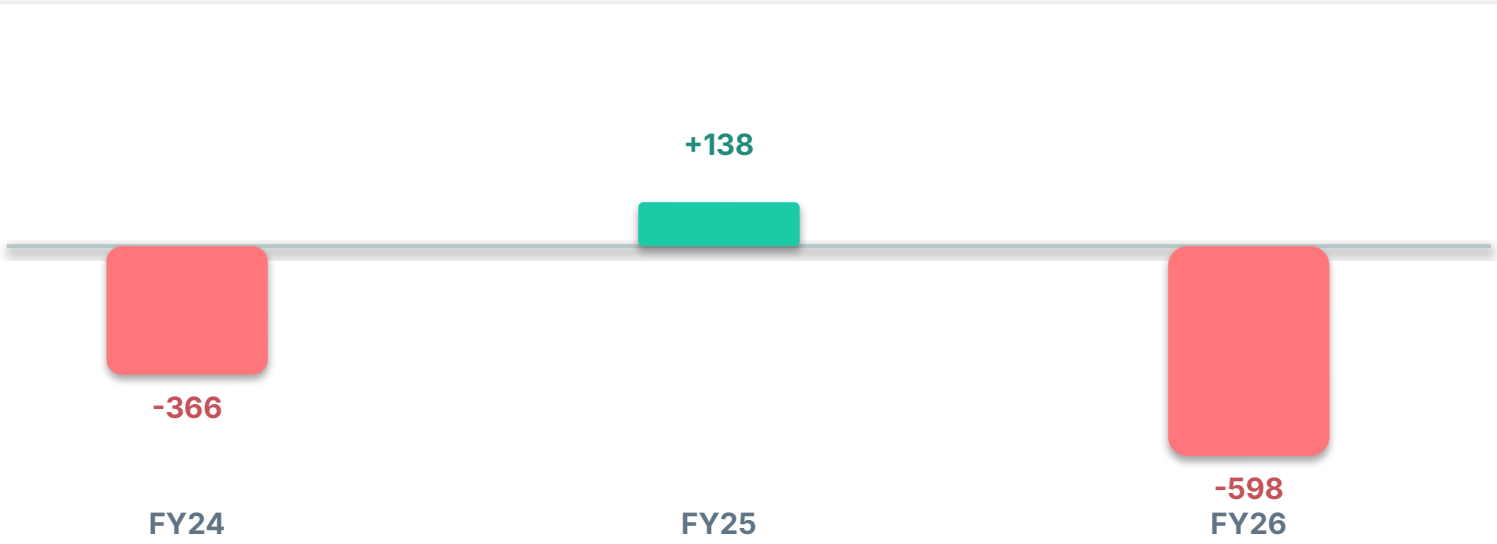

CRORE

OPERATING CASH FLOW

**–₹598.12**

CRORE

THREE-YEAR OPERATING CASH FLOW / ₹ CRORE

WHY THE GAP?

**Receivables and inventory tie up capital. Accounting profit is not the same as cash collected.**

ACTION PLAN

# From financial insight to business action.

Proposed actions for Inox Wind — not company commitments.

01

0–30 DAYS

## IMPROVE CASH VISIBILITY

Rolling 13-week forecast, customer-wise collection plan.

02

30–90 DAYS

## UNLOCK WORKING CAPITAL

Link invoicing to milestones; resolve retention claims.

03

30–90 DAYS

## PROTECT PROJECT MARGINS

Track procurement, subcontracting costs and cost overruns.

04

3–6 MONTHS

## ALIGN FUNDING & RETURNS

Review maturities, refinancing and ROE on new capital.

BOTTOM LINE

**Inox’s ratio recovery is real in the reported accounts. Cash conversion is the priority.**
